Education Experience

E-commerce Platform Developer — Capstone Project   2025 – 2026

NovaTech PH – A Web-Based E-commerce Platform for PC Component Sales with AI Assistance and 3D Visualization

- Developed a full-stack web-based e-commerce platform for PC component sales, including interactive 3D model builder, AI assistant, and receipt generation.
- Built a React and Three.js frontend with backend integration for product visualization and simulated transactions.
- Implemented the Nova AI assistant, incorporating data privacy compliance and automated receipt systems.

Salesforce Developer Trainee — Remote Capstone Project   2025 – 2026

Salesforce Trailhead Platform HandsMen Threads

- Developed a Salesforce-based e-commerce platform for HandsMen Threads, including custom objects, Lightning Web Components (LWC), and Apex classes for product catalog, order management, and automated receipt generation.
- Integrated an AI-powered assistant for user guidance and implemented dashboards and reports for real-time sales tracking and inventory monitoring, ensuring data privacy and operational efficiency.
